## HELLO THERE!

Our delicious burgers are grilled to order, so may take up to 10 minutes to prepare.

Our patties are formed fresh daily and our quality beef is 100% grass fed, preservative free and never frozen.

We believe our burgers taste best when the patty is cooked medium and this is our tried and tested method. This means you may see some pink inside. This is done purposely, as it creates a much juicier, more flavorful burger.

If this is not up your alley, please let us know when placing your order and we will be happy to leave it on the grill a bit longer.

We are proud of our high quality chips and sweet potato chips. Sauce is *FREE*.

If you are vegetarian, vegan or gluten free, Barry ain't mad about it. Please chat to us about your requirements and we will happily do our best to accommodate you.

Our goal is to  
serve up fresh,  
tasty food that  
leaves you  
feeling good.
